## *Operation Round-Up Opt-Out .*

Chariton Valley Electric Cooperative is pleased to offer the Operation Round-Up® Program to all cooperative members. As of January 1, 2020, all members are able to "round up" their monthly electric bills to the nearest dollar and donate the difference to a charitable fund to be used in Chariton Valley Electric Cooperative's service territory and communities.

The purpose of this program is to accumulate and disburse funds to non-profit organizations and individuals or families who have experienced an unforeseen emergency or disaster. The minimum amount you will contribute each month is \$0.01, and the maximum is \$0.99. On average, a member will contribute just \$6 annually.

All members are automatically enrolled unless we hear from you. To opt-out simply fill out and return the attached form. CVEC hopes our members will give thoughtful consideration in participating in this charitable program - as "Rounding Up" is truly members helping members!

With your small change you can help purchase life-saving equipment for volunteer fire departments, fund community improvement projects, support youth educational programs, or help a teacher purchase much needed supplies - to just name a few!
